There can be but one outcome when the British people have arisen, moved by a single impulse, to defend

This royal throne of kings, this sceptred isle,  
This earth of majesty, this seat of Mars,  
This other Eden, demi paradise;  
This fortress, built by Nature for herself,  
Against infection and the hand of war,  
This happy breed of men, this little world,  
This precious stone set in silver sea,  
Which serves it in the office of wall  
Or as a moat defensive to a house—  
Against the envy of less happier lands—  
This blessed plot, this earth, this realm,  
This England.

Mr. and Mrs. Jas. McNaughton returned Saturday from their trip to Manitoba, they have been away a month.

Mr. and Mrs. W. R. Trusswell and daughter of Sunburst, Montana, were week end guests of Mr. and Mrs. Jas. Davey.

It was our privilege to attend the Canadian Weekly Newspapers Assoc. Alberta branch, annual convention in Lethbridge on Friday. The meeting was a splendid one with most of the editors present. Both morning and afternoon sessions proved very instructive. At lunch we were entertained by the Calgary Power Co. and the banquet in the evening was sponsored by the Paper houses. For a side trip at five o'clock we were taken out to the K. Ayon field and shown through the air training school. Saturday morning the Board of Trade provided transportation to Waterton Lakes where we were the guests of Senator W. A. Buchanan and the Lethbridge Herald to a trip down the lakes and banquet at the Prince of Wales hotel. It was two days thoroughly enjoyed by all, the weather being perfect.

I have been asked by your managing editor, Mr. Glinz, to fill the breach while he is attending camp, and I hope I do so to your satisfaction.

### A Day Of Prayer

Upon the request of His Majesty, the King, the Canadian Government has asked all churches to observe Sunday, Sept. 8, the anniversary of the outbreak of the war, as a day of prayer. This paper asks all its readers to attend the church of their faith on that day and participate in the supplications made.

We have stressed in this paper for some time the fact that the whole war is more or less the result of a falling away from Christian principles. Speaking at a directors luncheon at the Canadian National Exhibition to Newspaper men, James Cromwell, former United States minister to Canada, emphasized this very point. There has been a getting away from the spirit of the pioneers both of Canada and the United States. The men, who with Bible, axe and gun, each used in the proper way, laid the foundations of the two great nations, the American stated. Lack of Christian practices has led one nation after another to seek territory revisions. Individuals have pushed their business enterprises without regard to their fellow man.

In coming together for prayer, then, let us ask for a speedy peace through victory of arms but let us also ask Him to guide us so that these mistakes will not happen again. We are fighting forces which have openly disregarded Christ's teaching and if our prayers are humble and sincere there is every reason to believe that He will answer in His own good time and peace will be restored to this troubled world.

We are fortunate in having as our leaders from King George to our Canadian Prime Minister, men who are imbued with Christian ideals. Their example and appeal for prayer to God, the supreme ruler or the Universe should not go unanswered. Let every one of us attend church on Sunday, or if unable to do so, pray privately.

After a prolonged spell of dry weather, that has been excellent for the harvest, rain has called a halt for the time being. At any rate the quota is about filled and farmers will be able to finish looking after the storage for the balance of the crop.

## PROTEST SPEEDING ON ALBERTA ROADS

Enforcement of the Vehicles and Highway Traffic Act in this province has been called for by the Alberta Motor Association, which has submitted its request to the provincial authorities and R. C. M. P.

A recent communication from J. A. Knoepell, of Calgary, to the highway traffic board, which was endorsed by the local branch of the A. M. A. drew attention to complaints of visiting tourists. These included speeding and passing cars on dangerous corners and hills, parking on highways after dark, passing cars without dimming lights and lack of proper signals when passing cars.

Further need of action was revealed when a member of the Calgary branch reported that in one trip over the main highway between Edmonton and Calgary he had noted the following law violations: 22 cars with no tail-light; 57 with one head-light; 199 failed to dim their lights; 28 were travelling at a speed estimated between 60 and 70 miles per hour.

Reduction of the number of accidents on Alberta highways will be effected only through the elimination of dangerous driving and the enforcement of traffic regulations, it is emphasized by officials of the A. M. A.

**THESE THINGS  
ARE WORTH WHILE**

- 1 The Wheat Pools introduced wheat price stabilization as an innovation in Western Canada. It is now a permanent government policy.
- 2 It cost the Pools \$22 millions to teach Canada that her wheat producers must have price protection. The Pools are paying that money back. Speaking for the Alberta Wheat Pool it can be said the price stabilization of 1929-30 will not cost the province a single cent.
- 3 The government Wheat Board was formed after a lengthy campaign towards that end by the Wheat Pools and farmer organizations. From 1921 up until a couple of years ago the grain trade fought like tigers against the suggestion of a Wheat Board.
- 4 The Wheat Board and other government wheat price stabilization measures have added at least \$200 millions to the income of the west in the past ten years.
- 5 Farmers could get little or nothing for their wheat today but for the Wheat Board.
- 6 Pool elevators have held down profit margins and protected grain producers in many ways. The trade now admits there are no large profits in the grain business as in years gone by.
- 7 Prior to the erection of Pool elevators, profits were large. In one year the profits in grain overages alone in terminal elevators at Fort William-Port Arthur were over \$2 millions. One firm made over 50 per cent in its terminal operations in a single year (Price-Waterhouse Report). These huge profits cannot be made to-day — thanks to the Wheat Pools!
- 8 When grain producers patronize Pool elevators they aid in strengthening a farmer-owned co-operative which is constantly battling for their welfare. Also they build up an equity for themselves in a useful organization. A farmer might deliver a million bushels to a line elevator company and he would not have a cent's worth of equity in the concern, nor a word to say in its operation. Remember you get the very best and fairest treatment from Pool elevators.
- 9 Ten years ago the opposition cheerfully predicted Pool elevators were bankrupt and headed for the scrapheap. To-day Pool elevators are in excellent financial shape, rapidly cleaning off all indebtedness and developing plans to devote surplus earnings back to producers. This is the last thing the opposition wants to see done.
- 10 Pool elevators have made a genuine contribution to grain producers, as outlined above, and one that can be measured in millions of dollars.
- 11 If at all possible grain producers should see that their grain goes to a Pool elevator. The undisguised venom of the opposition shows that Pool elevators are succeeding in their useful and necessary objectives — the consolidating and benefitting of all farmers in Western Canada.

**THE BEST VARIETY**

Many farmers will harvest quite large fields of some of the new varieties of wheat, oats and barleys.

The advancement of agriculture would be assisted if such farmers would make a careful note in writing of the yield per acre of the different varieties they harvest, and keep notes, too, of the reasons for their preference of one variety over another.

The statistical department of the "Crop Testing Plan" would be glad, indeed, to receive any information along these lines that farmers care to give. The information can be handed to the nearest Searle Agent.
